

Victoria's Roadmap: Delivering the National Plan

Summary of proposed restriction levels - Regional Victoria

Note 1: The settings below are indicative only and subject to change. All changes to the Chief Health Officer's Directions are based on public health advice (including epidemiological evidence) and legal advice (including as to compatibility with the Charter for Human Rights and Responsibilities) at the relevant time, in light of the specific risks to public health and changes/measures proposed. All directions must be reasonably necessary to protect public health and the Chief Health Officer (or delegate) must act in a way that is compatible with the Charter for Human Rights and Responsibilities.

Note 2: Cleaning, signage, record keeping, and other COVIDSafe requirements for work premises continue to apply for all venues and facilities with onsite operations as per Workplace Directions and Workplace (Additional Industry Obligations) Directions. Density quotients (DQ) apply to all venues and spaces that are accessible to the public.

Note 3: All proposed easings from 80% fully vaccinated (indicatively 5 November) are dependent on the ability for venues and employers to confirm vaccination status of patrons and employees, respectively.
